Speaker Series**

***How can IU's Stat/Math Center help you?***

**By**

**John Samuel**

**Director, Stat/Math Center – Indiana University**

**Wednesday, September 23, 2009 – 12:00 - 1:00 – Woodburn Hall 200**

The mission of Indiana University's Stat/Math Center is to support IU faculty, students, and staff as they employ statistical analyses and advanced mathematical operations in their university work. Their services include, among other things, support and consulting for a wide range of statistical and mathematical and qualitative software, in-depth consulting services for applied statistics, and instructional services for faculty who are integrating statistical and mathematical software into their classes.

In spite of the Stat/Math Center's great work, however, many faculty and graduate students across campus are unfamiliar with the Center's services. John Samuel, the Director of the Center, will provide an overview of these services and answer any questions you may have about how the Stat/Math Center can aid you in your work.

Financial and logistical support for WIM is provided by the Office of the Vice Provost for Research.

WIM Director: William Alex Pridemore, Professor of Criminal Justice, [wpridemo@indiana.edu](mailto:wpridemo@indiana.edu).
