Adapting Universities to the Global Society – A Transatlantic Perspective

The contributions of this volume are based on the colloquium “Adapting universities to the global society – a transatlantic perspective”, held by the Transatlantic Policy Consortium on the Bloomington Campus of Indiana University in September 2007.

The 12 provocative papers

- investigate the impacts of globalization and global competition on the performance, mission, role and shape of American and European universities,
- identify the differences between American and European universities regarding societal support, research, management and leadership,
- examine ways of closing the gaps and meeting university quality challenges, and
- assess the values of the Bologna Process and the changing nature of university governance.

The volume provides a unique insight into these problems from a European and US perspective.

Dr. Charles F. Bonser is Dean Emeritus of the School of Public and Environmental Affairs, Indiana University, Bloomington, Indiana, USA.
