About the Tocqueville Program: The Tocqueville Program created
in 2009 with the generous support of the Jack Miller Center, is part of
a developing network of newly founded centers and programs meant
to promote critical reflection on the principles of American
democracy. It seeks to engage historians, political scientists,
sociologists, and anthropologists in order to reflect critically on
Tocquevillian themes and tropes that deal with important issues such
as freedom, equality, civil society, religion, citizenship, mores,
individualism, democracy, centralization, self-government,
despotism, and civil associations.

A New Book: The Liberty Fund bilingual *Democracy in America* is
the fullest historical-critical edition of the *Democracy*. It includes
Eduardo Nolla's historical-critical edition of the French text and
notes on the left-hand pages and James Schleifer's new English
translation on the right. The notes offer an extensive selection of
early outlines, drafts, manuscript variants, marginalia, unpublished
fragments, and other materials.
