Irv 2000

- An all terrain wheelchair with joystick steering, five speed ranges and a unique track design. The maneuverability of the IRV 2000 personal mobility vehicle provides for an active lifestyle in winter, spring, summer, or fall. The IRV 2000 personal mobility vehicle can travel 5 to 12 miles in most conditions, depending on weight of driver and terrain. The track system allows you to cross ruts, sticks, boards, cables, cords, and most any object that is less than 4 inches (100mm) high. The tracks may be operated in full flat position for snow or mud and half track for normal running in sand and grass. Also, the IRV 2000 personal mobility vehicle can operate in the "three point" mode for smooth surface or on carpet.
- Size Options: Width: 27", Length: 43"
- Seat sizes: various.
- Weight of Unit: 400 lbs with batteries
- Environmental Claims: N/A
- Cost per Unit: Contact vendor for pricing
