

**POSTDOCTORAL POSITION
ATMOSPHERIC CHEMISTRY AND BIOGEOCHEMISTRY
School of Public and Environmental Affairs
Indiana University
Bloomington, IN**

Applicants are sought for a postdoctoral position to begin in spring/summer 2012 in the Atmospheric Chemistry and Biogeochemistry Laboratories at Indiana University - a collaborative research group centered in a new multidisciplinary research facility. The appointment is for 2 years with annual renewal based upon performance. The successful candidate should have research experience in analytical chemistry, physical chemistry, or biogeochemistry and an interest in studying biogenic emissions into the atmosphere. Proficiency in the use of spectroscopic techniques, mass spectrometry, and chromatography to analyze trace gases in environmental matrices is desirable. Knowledge of modern biochemical techniques (FISH, fluorescence and light microscopy, environmental genomics) is also of interest. More information can be found at <http://www.indiana.edu/~rafflab/>. Please submit your electronic application, including a CV, a statement of research interests, experience and research goals, and contact information for three references, to Jonathan D. Raff, Ph.D., Assistant Professor of Environmental Chemistry, Indiana University, Bloomington, at jdraff@indiana.edu or a hard copy to:

*Jonathan D. Raff
Assistant Professor
Center for Research in Environmental Science
School of Public & Environmental Affairs
Indiana University
MSB II, Room 308
702 N. Walnut Grove Ave
Bloomington, IN 47405-2204*

Review of applications will begin December 26, 2011 and continue until the position is filled.
