Take Action!

Computers in the business sector waste \$1 billion worth of electricity a year.

Make it a habit to turn off your computer and the power strip it's plugged into when you leave for the day.

IUSTF is under construction!

The mission of the Indiana University Task Force on Campus Sustainability is to develop a framework for Indiana University's plan for sustainability. The university defines sustainability as development that meets the needs of the present without compromising the ability of future generations to meet their own needs. Specifically, seven areas will be considered- Education & Outreach, Resource Use/Recycling, Energy, Built Environment, Environmental Quality/Land Use, Transportation, Food. [Read More >>](#)

Mission

Define a "sustainable campus food model." Focus will be on a healthy diet, low waste generation, regional orientation, and sustainable farming practices.

Anyone interested in participating in the food project, either over the summer or in the fall should contact Benjamin Schultz (schultzb@indiana.edu).
