

June Board Notes:

Fellow University Club Members:

Many reports of the exciting plans for the 09 - 10 year were received at the June 12 board meeting. Fall semester plans include:

- Jazz in July on July 24 will give members a chance to enjoy one of the summer concerts and then assemble in the President's Room for a catered picnic.
- The welcome reception will be held on September 17 in the club rooms. Meadowood

is sponsoring this annual event at which everyone will have a chance to meet new Dean of Students, Pete Goldsmith.

The roster of fall semester events include traditional activities like the Holiday Gala and New Year's Eve Party and innovative new events

- The University Women's Club will kick off their programs with Sylvia McNair at their Fall luncheon on September 10.
- Athletic Director Fred Glass will headline one of the programs of the Luncheon Club planned for the Fall semester.
- The games, activities, and meal time socializing provided by the University Women's Club's interest groups will continue.
- 23 members kicked off the year on the annual Churchill Downs trip. Other trips to plays, events, and special locations are on the docket.
- All U Club members are invited to the IU Alumni Association event on June 28 at Eagle Creek Park.

An e-mail from Barb Aspy, club manager, calls attention to dates you'll want to put on your calendar NOW and full details will be included in the monthly newsletters starting in September.

Other member services are also making good progress:

- The membership and publicity committees are working cooperatively to attract new members, give existing members involvement opportunities, and publicize the exciting breadth and depth of the club's activities. Send the names of member prospects and of ideas for recruiting and involving members to the club office.
- Karen Whiteside, Sharon Woodhouse, and Suzanne Phillips represented the club at The Big Ten University League Conference at the University of Wisconsin at Madison on June 5, 6, and 7. They provided an interesting Power Point report of the excellent conference and have lots of good ideas that will be integrated into the U Club operations during the year.
- Kate Kroll reported for the house committee that the main floor women's rest room is now more disabled friendly, thanks to some bright ideas of club manager Aspy. Kate also reported that the change in member's use of keys to the access the club rooms at any time has been deferred.
- The social hour honoring retiring Dean of Students Richard McKaig was very successful; the club has asked the IMU to operate the social hour in the Faculty Room every Thursday evening in the fall semester. Programmatic activities during these social hours are planned.

I look forward to joining you for the many activities the University Club will present during the 2009 - 10 year.

Ronald Kovener

President of the University Club
